

Finder Relays, Inc.

NEW Product Introduction

NEW

RoHS compliant - **SPDT 16A & DPDT 8A** - Industrial Plug-In Relay sets new standards

46 Series Miniature Industrial Relays These new power packages from Finder are setting a new industry standard and are outshining the competition. The single pole version comes with a powerful contact rating of 16A @ 277 VAC. The double pole version is rated for 8A @ 277V AC. They are available in AC or DC coils and offer a variety of features and options including mechanical indicator, lockable test button & green non-polarized LED. Competitively priced, it is an ideal solution for applications requiring high switching capacity and reliability in a physically small package. Finder also offers standard finger safe screw terminal and spring clamp terminal sockets with separation of input and output circuits.

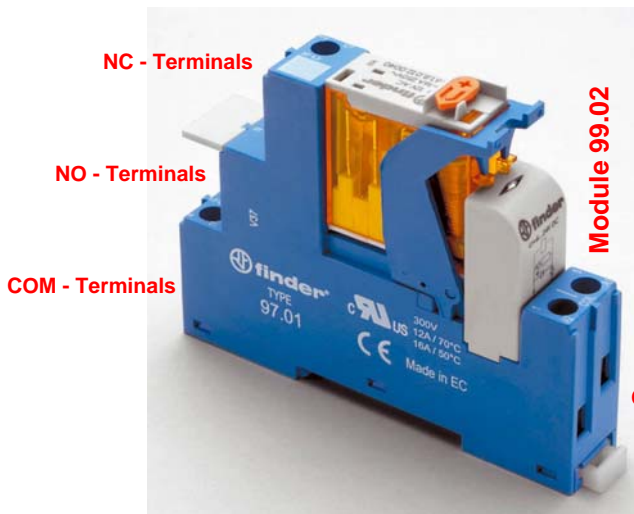

Finder also offers our **4C Series** as a pre-assembled UL listed interface module combining relay, socket, ejector/retaining clip and suppressor module as one convenient part number.
