Since 1954 Finder has been a leading European manufacturer of innovative, high-quality electromechanical and solid state relays, timers and accessories.

Finder has worked exclusively in the field of relays and timers, which has resulted in over 10,000 products. This high degree of specialization has produced one of the widest ranges available.

The Company:

- Independent and privately owned
- \$210 million annual sales
- 220,000 sq ft of production facilities
- 950 employees
- 20 worldwide subsidiaries
- Daily output of 300,000 relays & timers
- Largest relay socket producer in Europe
- Strong distributor network
- 100% Western European production
- ISO 9001-2000 and ISO 14001

The Product:

- Miniature and Industrial Plug-In Relays
- Interface Modules (UL listed, pre-assembled – ready to use)
- Printed Circuit Board Relays
- Mechanical Latching Relays (step relays)
- Timers (single-and multi-function/voltage)
- Liquid-Level Relays & Phase Monitoring Relays
- DIN-Rail, PC Board and Panel Mount Sockets (Finger-safe)
- Safety Relay according to EN 50205 Type B
- Solid State Interface Modules
- Light Dependent Relays

Our relays, sockets and timers have worldwide approvals including UL, CSA and VDE and are in compliance with the RoHS directive, IEC standards and the CE directive.
